"Put themselves in the merchant's shoes"  
Meta Inc.

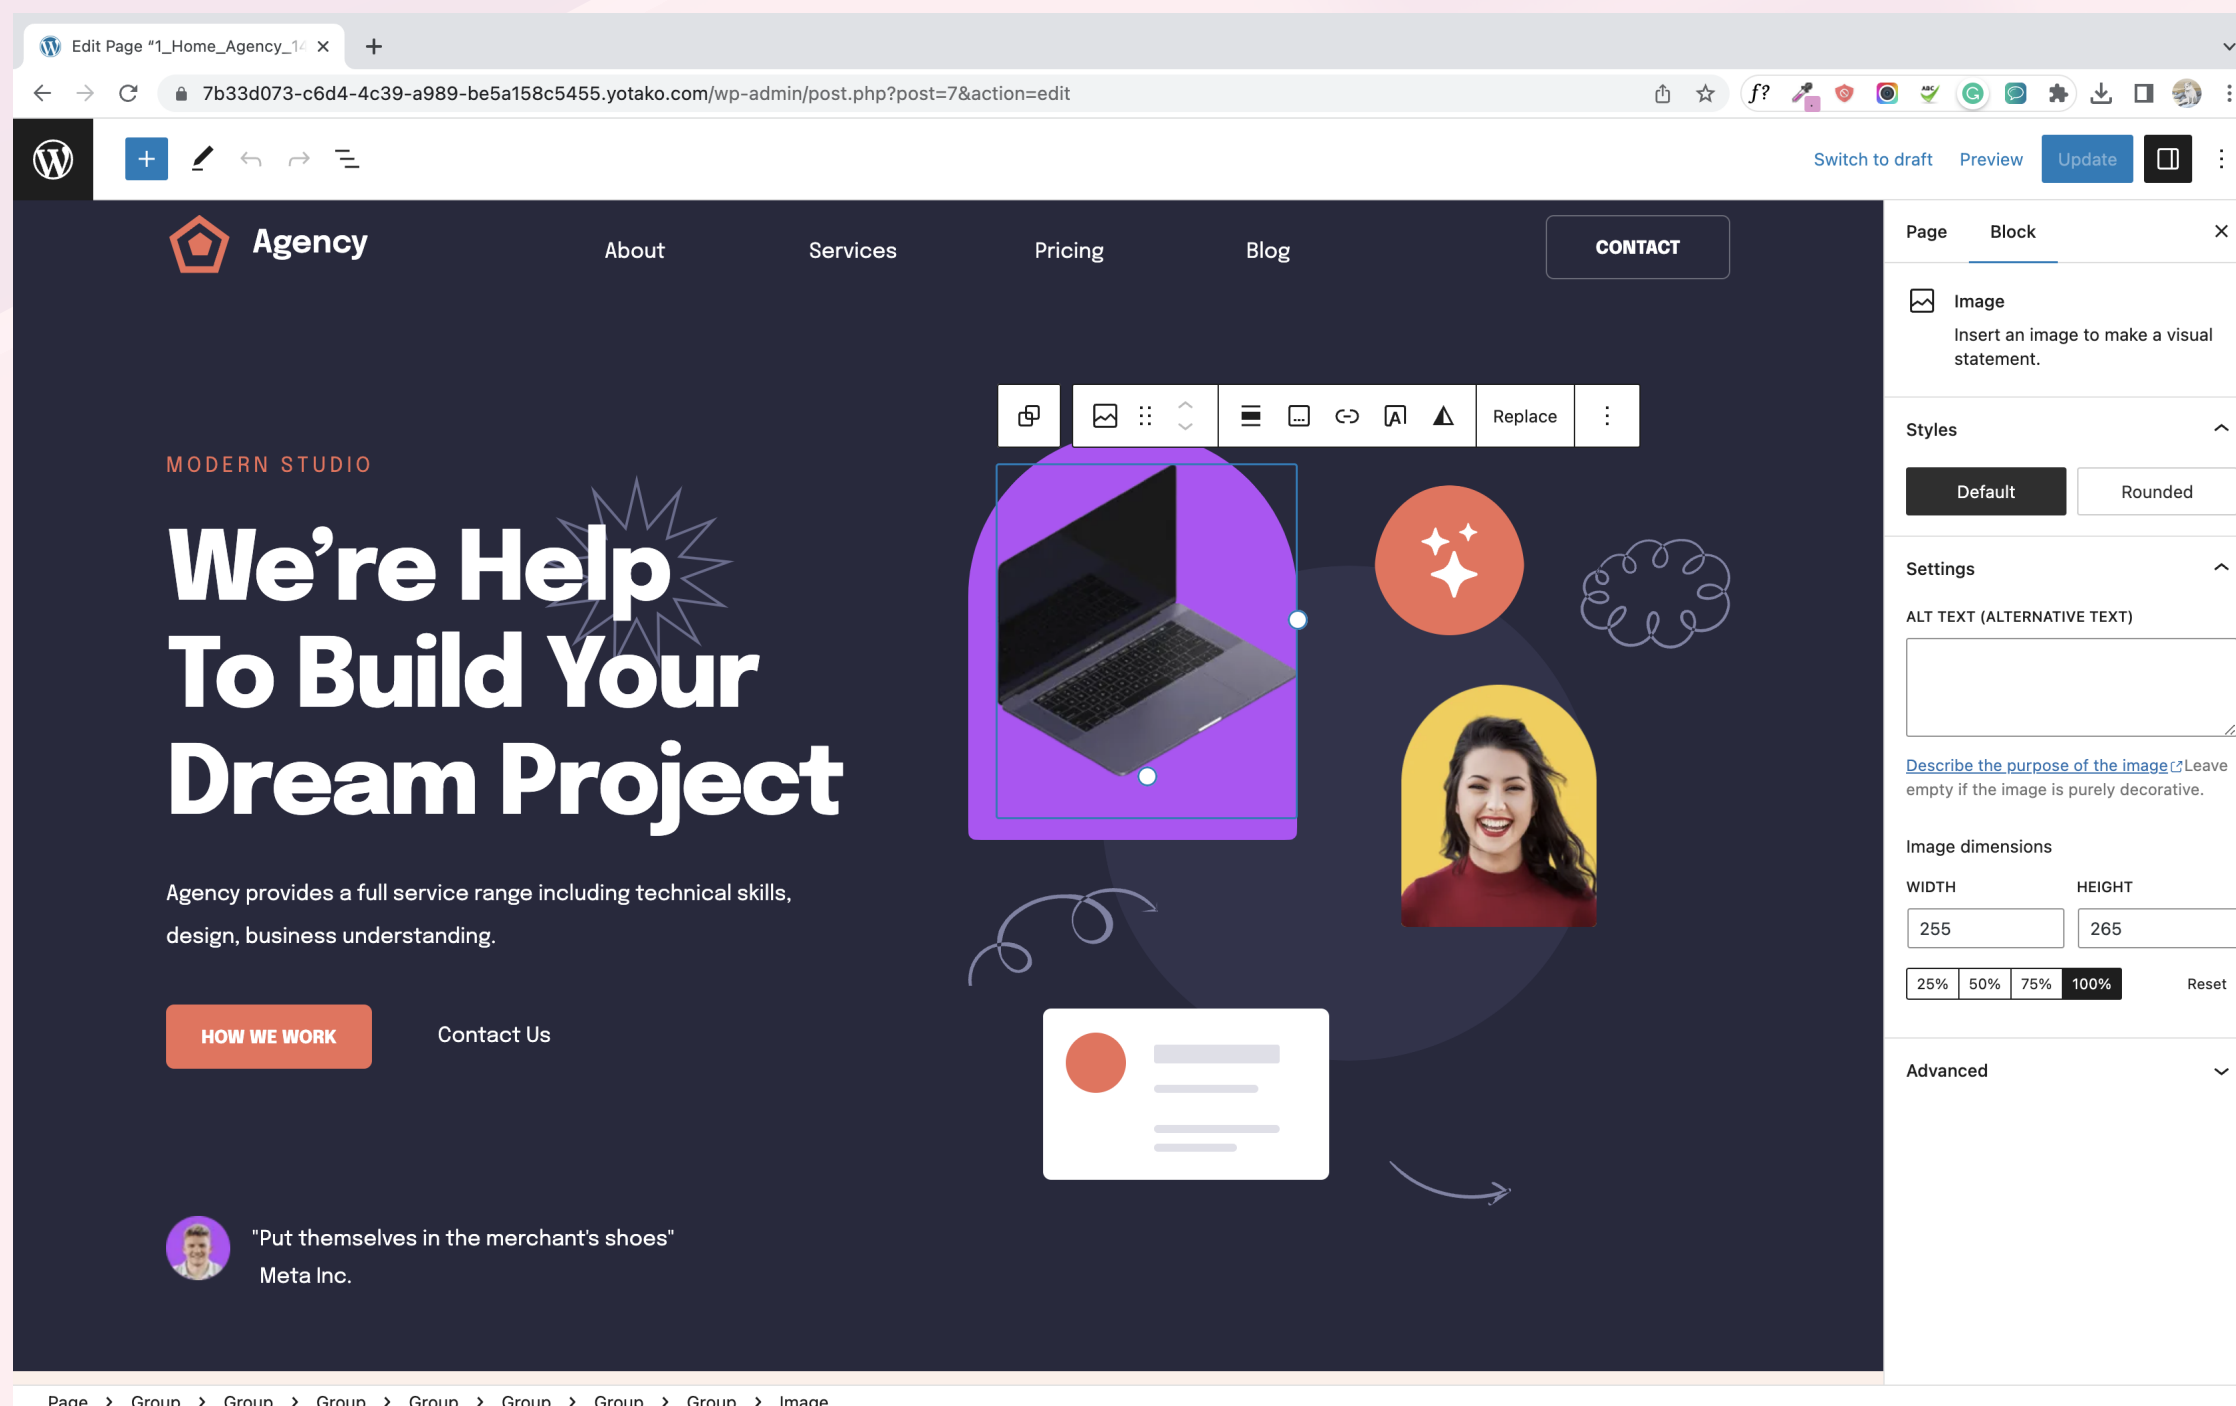

And here it is: your design transformed into  
a fully functional WordPress website, now  
live online!

The screenshot shows the WordPress dashboard interface. At the top, there's a navigation bar with the WordPress logo, the word "Preview", and a "PUBLISH" button. Below this is a sidebar menu with options like Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, and Settings. The main content area features a large blue banner that says "Welcome to WordPress!" with a link to "Learn more about the 6.2 version." Below the banner are three columns of information: "Author rich content with blocks and patterns", "Customize your entire site with block themes", and "Switch up your site's look & feel with Styles". At the bottom, there are several widgets: "At a Glance" showing 1 Post and 2 Pages, "Quick Draft" with a title and content field, "Activity" showing a recent post, and "WordPress Events and News".

# Edit and update your content online with the Gutenberg block editor by WordPress, if needed
